

# Handi-Sheds™

 **STRATCO**

**Elegant storage solutions to unclutter your world and compliment your home.**

The Handi-Shed range has outdoor storage solutions that combine form and function with quality manufacturing to deliver sheds that last the distance.

### Handi-Heritage™

More than just practical, the classic styling of Handi-Heritage sheds exude charm and character. Handi-Heritage has the style to make it a feature of any garden setting, with the strength and functionality to make it a lasting investment. The gable roof not only adds to its traditional charisma, but is extremely practical, combining extra head and storage room with the self-cleaning abilities of a pitched roof.

Handi-Heritage sheds have been designed with both strength and quality in mind. They incorporate an attractive fluted internal framework that provides high strength and flexibility. The framework also makes the addition of shelving or peg boards easy by acting as a pre-existing structure to which they can be fixed. The framework is simple to install thanks to the knuckles that are used to join the components. Every component used in the frame is galvanised to ensure a long, useable life.

Available in a full spectrum of colours and with the option for different roof and wall colour combinations, Handi-Heritage features traditional corrugated roof and wall sheeting for a clean appearance, and pre-cut gable end wall sheets for easy installation. The roof has a 22.5 degree pitch. The door is steel framed for strength and rigidity and comes with a key locking door handle for security. Handi-Heritage sheds are easy to install yourself or Stratco can arrange an installer to do the job for you.

Handi-Heritage sheds have a range of optional extras such as louvre windows with a choice of either a colour or zinc/alum frame, gutters and downpipes, gable spires, skylight roof sheets, masonry anchors, and footing brackets to attach the shed to concrete.

Model Number	SLED SIZE
	Width x Depth x Wall Height
H1	2.54 x 2.52 x 1.95m
H2	3.30 x 2.52 x 1.95m
H3	3.30 x 3.30 x 1.95m
H4	3.96 x 2.52 x 1.95m

Width & depth (approx) measured to outside of the roof

## Handi-Gable™

Experience garden storage with style. Form and function come together in the Handi-Gable shed. Designed to compliment your home, the Handi-Gable shed features a gable roof with a 15 degree roof pitch. The roof is both practical and stylish, providing the shed with extra head and storage room, along with the self-cleaning abilities of a gable roof. The roof is corrugated while the walls feature Wavelok® sheeting, which is a strong, attractive profile that delivers a modern style.

Available in a broad palette of colours, with the option of a different coloured roof and walls, or a plain zinc/alum roof. The wall sections on Handi-Gable sheds are prefabricated as complete panels to make assembly easy. The corners on each panel are folded by Stratco and simply rivet together to form a clean, attractive finish. The Handi-Gable shed is an ideal do-it-yourself project, or Stratco can arrange for a qualified installer to do the job for you.

Complete your Handi-Gable shed with a range of optional extras; from louvre windows in your choice of either a zinc/alum or coloured frame, to gutters and downpipes, skylight roof sheets, steel pegs, masonry anchors and fix down lugs.

Invest in a Handi-Gable shed with the assurance that it is designed and built to withstand the rigours of weather and time. All components are galvanised for a long life and the sheeting materials are made from zinc/alum coated steel with a pre-painted colour finish.

Model Number	SHED SIZE
	Width x Depth x Wall Height
W2	2.42 x 2.37 x 1.90m
W3	3.22 x 2.37 x 1.90m
W4	3.15 x 3.17 x 1.90m

Width & depth (approx) measured to outside of the roof

## Handi-Garden™

Crisp, clean and uncluttered lines are a feature of this attractive and economical garden shed. The Handi-Garden shed is a simple, well designed storage unit that comes in a size to suit every lifestyle and backyard requirement. An uncluttered interior structure, combined with bold attractive lines on the outside, make Handi-Garden sheds more than just a practical addition to the garden.

They are available in an impressive range of colours or in un-painted zinc/alum. Quality construction means your Handi-Garden shed will be a lasting investment. All parts and accessories are galvanised for durability. A sturdy ridge beam adds to the sheds rigidity. The walls are made from strong high profile Superdek® sheeting, and the roof is made from the easy to maintain corrugated profile.

Designed for quick and simple construction, Handi-Garden sheds are the ideal do-it-yourself project. The wall sections come as complete panels and the corners simply rivet together. Full length roof sheets mean there are no joins required on the ridge. Alternatively Stratco can arrange to have your Handi-Garden shed installed by a qualified trades person.

Handi-Garden sheds are available with a range of optional extras such as louvred windows with a choice of either a colour or zinc/alum frame, coloured roof sheets, a skylight sheet, coloured door frames and jambs, steel pegs, fix-down lugs and masonry anchors.

Model Number	SHED SIZE		
	Width x Depth x Wall Height		
N1	1.67	0.87	1.90m
N2	1.67	1.61	1.90m
N3	2.44	0.87	1.90m
N4	2.44	1.61	1.90m
N5	2.44	2.38	1.90m
N6	3.19	1.61	1.90m
N7	3.19	2.38	1.90m
N8	3.19	3.13	1.90m
N9	3.95	1.61	1.90m
N10	3.95	2.38	1.90m
N11	3.95	3.13	1.90m

Width and depth are measured to outside of the roof

## Handi-Mate™

Simplify your world and unclutter your environment with the ingenious Handi-Mate. A range of simple, elegant storage solutions that come in a box. Handi-Mate features a bold, defined shape that complements all styles of architecture.

The Handi-Mate is available in popular, attractive colours and a wide range of sizes. They have been designed to incorporate neatly under eaves and into most spaces where secure storage is required. Lockable sliding doors optimise the use of limited space. The range also includes a locker with double sliding front doors for easy access.

Handi-Mate is the ideal do-it-yourself project. It is delivered as a complete boxed package with clear concise instructions and all the components needed to finish the job.

Built to last, Handi-Mate is designed and constructed with quality galvanised components. Handi-Mate is clad with the tough and attractive Smartspan® high tensile steel sheeting. A profile that can withstand the rigours of everyday use. Handi-Mate sheds are engineered to withstand wind speeds of up to 147kph.

Model Number	SHED SIZE Width x Depth x Wall Height
HM1	1.86 x 0.85 x 1.90m
HM2	1.86 x 1.55 x 1.90m
HM4	2.21 x 1.55 x 1.90m
HM5	2.21 x 2.25 x 1.90m
HML	2.91 x 0.85 x 1.90m

Width and depth are approximate and measured to outside of the roof

## Handi-Shed Maintenance

Stratco Handi-Sheds are produced from the highest quality materials and will provide many years of service if the important recommendations set out in the Stratco 'Selection, Use and Maintenance' brochure are followed.
